

GameOfficials.net is a complete online assigning solution for virtually any team sport from the recreational level to the collegiate level and beyond! We combined years of practical assigning and officiating experience with years of development experience and use industry-leading technology to bring you a faster, easier, and smarter way to do business. We continue to develop and enhance the system using valuable feedback from organizations that use GameOfficials.net!

PERSONALIZE YOUR SYSTEM - Customize virtually every aspect of your personal system. With nine different login levels you can simply and intelligently manage the entire process of setting up leagues and entering games, assigning officials, and billing and paying game fees. Print reports based on any aspect of the system.

AUTO-EMAIL - Dramatically improve communication between Leagues, Teams, Assignors, and Officials. Now you can ensure that your relevant users are aware of key changes within 15 minutes.

PUT THE PHONE DOWN - Use GameOfficials.net and our state of the art auto-email system to have your officials Accept or Decline games with a simple click of the mouse -- or login to the system and respond to the assignment. Now your time will be more effectively spent assigning officials only for those unaccepted or declined games.

DECLINED GAMES - Now you can conveniently track reasons for declines and adjust the assignments accordingly! An optional built-in feature forces your officials to enter a reason when declining a game. Use it selectively for valuable insights on how to increase the odds of accepted assignments.

Decide who has access to your organization's information – and how much they can see or do when they login. Determine who can view and edit content, and to what extent. Deny access to your user's confidential contact information.

Fast, Easy, and Smart!

Game listings present your games and assignments in a clear and intelligent manner. This allows you to quickly scan games for open slots, declined officials, and other items that need your attention.

Batch Assigning

The basic Batch-Assigning mode allows you to select games and then select Officials that you want for each game.

Officials are filtered based on their availability and preferences. You can override the filters, however, and assign any Official to a game using the Game Maintenance page.

Current View: 12/4/04 • BATCH GAME MAINTENANCE •

Gm #	Date & Time	Level & Sport	Location	Teams

■ - Assigned to game ✖ - Ref Game Filter Conflict ✖ - Loc pref is "No"
■ - Unavailable ↑ - Position exceeds difficulty ♦ - Loc pref is "Maybe"
■ - Available 👤 - Spot is filled, but not accepted 👤 - Spot is filled and accepted
👤 - Spot is vacant and needs filled 👤 - Spot is filled, but declined

Multiple assigning options allow you the flexibility to use the method that works best for you. As an alternative to selecting games, you can change your perspective and first select the Official to assign to specific games.

For even greater control, use both methods!

Automatic alerts warn you of potential conflicts (games with unassigned officials, overlapping games, and more). No more brain boggling sessions that leave you wondering if you've covered all your bases!
